DETAILS

UL TUV CB EMC CE certified MW HLG series power driver, IP67 protective level, 7 years warranty.

The integration of reflective optical design, install directly in the light body, make the light more focus and comfortable for eyes.

High pressure die casting alloy aluminum housing, create through high pressure(1600 ton) in one piece, high explosion proof level and IP68 waterproof protection.

LED chip with 2.0mm thick Aluminum PCB board installed directly onto Aluminum Shell. As a result, the whole lamp is integrated as a radiator for the LED chips. Besides, the distance of LEDs are good enough for spreading heat, to ensure long lifespan, and with special circuit design, each LED chip won't affect the others when fail to work, so the lamp will keep working even if some LED chips stopped.
